Subject to electricity tax

- the supply of electrical energy in the tax territory, except to electricity companies for onward supply,
- the consumption of self-produced or brought into the tax area electrical energy in the tax area,
- the **forwarding** to end consumers by network operators.

Tax area is the federal territory, with the exception of the area of the local communities of Jungholz in Tyrol and Mittelberg in Vorarlberg.

Who is liable for the electricity tax?

- In the case of supply of electrical energy the person supplying.
- In the case of consumption of self-produced energy or by electricity companies if no third-party network is used in - the person who which consumes electrical energy.
- If the use of the network for delivery to the consumer is tolerated, **the network operator** shall pay the natural gas levy as liable party on behalf of the levy debtor.
- In the case of **non-compliance with eligibility requirements**
 - according to the Electricity Tax Act Implementation Ordinance, the beneficiary electricity producer (possibly the members of a generator group) or
 - according to the Electricity Tax Act BSV the railway company or in cases where the traction current is not consumed by a railway, the user.

Tax exemptions

- The following are exempt from the tax:
 - The electrical energy used for the generation and transmission of electrical energy, natural gas and mineral oil (Section 2 Para . 1 item 1 Electricity Tax Act).
 - The electrical energy used for non-energy purposes (e.g. galvanization, electrolysis) by way of payment to the User (Section 2 Para. 1 item 2 Electricity Tax Act) using form ELA 3.
 - Electricity generators independent of the primary energy used up to a free limit of 5,000 kWh for self-produced and self-consumed energy (Section 2 para. 1 item 3 Electricity Tax Act).
 - Electric energy, insofar as it comes from renewable energy sources (small hydroelectric power stations, photovoltaic systems, wind power stations, etc.) from electricity producers, including from Producer groups, self-generated and not fed into the grid, but consumed by themselves, for the annual that can be proven to be self-consumed electrical energy (Section 2 Para. 1 item 4 Electricity Tax Act).
 - Traction power generated by railway companies themselves from renewable energy sources, insofar as this is used by railway companies to drive and operate rail vehicles (Section 2 Para. 1 item 5 Electricity Tax Act).

Tax base and tax rate

- Tax base is the supplied/consumed energy in kWh.
- The tax is 1.5 cents per kWh. In the period from 01 May 2022 to 31 December 2024, the tax is 0.1 cents per kWh.
- The tax for traction current is 0.18 cents per kWh (Section 4 para. 3 Electricity Tax Act in conjunction with Section 4 Electricity Tax Act BSV), provided there is no tax exemption is applied or the preferential treatment is not to be applied for by means of Form ELA 3 (Section 5 Electricity Tax Act BSV). In the period from 01 May 2022 to 31 December 2024, the tax is 0.1 cents per kWh. A request for reimbursement is excluded for transactions in the period from 1 May 2022 to 31 December 2024.

When and where should the tax return be submitted?

Please submit the annual return to the tax office responsible for collecting sales tax by 30 June of the following year.

Note on the payment of the electricity fee

Electrical energy is used

- for the production or transmission of natural gas or petroleum, or
- for non-energetic purposes or
- as traction current from privileged users (Section 5 Electricity Tax Act BSV),

then the reimbursement should be applied for using the ELA 3 form.

An application for remuneration for traction current according to Section 4 paragraph 3, 2nd sentence is excluded for transactions in the period from 1 May 2022 to 31 December 2024.
