If the data are correct, the employer must consider the changes reported in the payroll accounting.

If, on the basis of this declaration, amounts are considered by the employer/agency paying out the pension although the conditions for the same are not fulfilled, or if it appears that too high an amount was considered, this leads to a mandatory tax assessment!

Please note:

Even if the benefits have already been considered during the year by the employer, do not forget to apply for them in the employee tax assessment. Otherwise, there will be a subsequent taxation.

I certify that the above information is **correct and complete** to the best of my knowledge and belief. I am aware that incorrect or incomplete information constitutes a punishable offence.
